National On-Line Retailers of AlpineAire Foods since 1996

June 26, 2013

Letter of Reference.

To Whom It May Concern:

It has been a very positive business experience for us to have Frontline Processing as our merchant account / credit card processing partner. Starting with our initial meeting, their assistance throughout the term of our relationship has been professional and thorough.

When things are going well with no bumps or hiccups, we tend not to think of all of the moving parts that need to come together smoothly in order to have a successful enterprise. It's only when questions or issues arise that we discover what needs to be done in order to make the details work properly again. To that point, when we have needed assistance, information or support, Frontline has always been there for us with what is needed in each situation. Our representative, Matthew Risley, has always been timely, knowledgeable and accurate with his support....thank you Matt!

Any company needing the services that Frontline provides would be doing themselves a great service by considering Frontline Processing.

Sincerely,

Rodney Bonvicino
