To whom it may concern:

Laser 1040 has used Frontline Processing for several years. The prices and reasonable and when we have on the rare occasion needed to call support the response has been timely with no waiting on hold or anything like that.

As more clients are using debit or credit cards this service is invaluable to our business. We process all four major credit cards along with debit cards seamlessly without a hitch. The increased use of cards has also reduced our bank deposit time.

Thanks, Frontline, for the GREAT service.

Becky Spencer,
President
