Dear Frontline Staff;

I'd like you to know that I appreciate your quality support.

I have had occasion to ask for help on charges I was confused about, or for which there was a customer believing there might be a discrepancy. In each case you were able to research the transaction and provide the data and assistance clarify and confirm the transactions.

Recently I received assistance from Genna Hines where she politely and quickly found the answers I needed to deal with a customer asking me a question I couldn't easily answer. Thanks Genna.

Considering the quality support ReddiForm has received from the Frontline staff, we plan to continue our relation with Frontline.

Thank you for your service.

Sincerely,
Rick
