

Frontline Processing

June 28, 2013

Dear Mike Peterson;

There are a couple of things that I want to point out about Frontline Processing and their services. I had contacted Mike Peterson a while ago about looking at our services and what they could do for us since they were giving back to our local high school booster club. He was very honest in their pricing structure and made it really easy to follow along and finally know what we are acutally paying. There were no hidden fees and he didn't "stick" me with a long term deal. Earlier this year we had an issue with the Government going to plastic instead of check payments, I called Mike to see what we needed to do. He knew exactly what we needed and had us moved over to accept those cards now. It took awhile but Mike was letting us know the status almost weekly.

What Frontline Processing is doing for our booster club and local youth is worth recommending in itself. Both Chris & Mike have put a lot of time into making our community better.

Sincerely,

A handwritten signature in blue ink that reads "Marvin Stephens". The signature is written in a cursive style.

Marvin Stephens
